

IOSH Working Safely

Duration:

One day

Group Size:

Maximum 12 learners

Who should attend?

All employees and employers. This course is ideal for people at any level in any organisation, in any sector, needing grounding in the essentials of Health and Safety.

Course Content:

- Identify the hazards and evaluate the risks in their workplace
- Use appropriate workplace precautions for specific tasks or seek advice on workplace precautions
- Assist in preparing written risk assessments
- Understand and follow their Company Health & Safety policy
- Co-operate and communicate on safety issues
- Complete their work duties without risk to them or anyone else
- Report incidents and accidents
- Monitor their own work activities and assist in active monitoring

All learners will learn about hazards and risks. The course shows what can happen and what consequences may be when not working safely. Learners will learn how risk assessments help to reduce risks and why it is important to follow safety procedures put in place.

Certification:

Learners will complete a written assessment to demonstrate their underpinning knowledge. Upon successful completion, the learners will be issued with an IOSH Working safely certificate or if preferred the IOSH Passport (card)
