

Hydraulic Lorry Loader

Duration:

One to three days

Group Size:

Minimum of 3 candidates

Who should attend?

All persons required to operate a hydraulic lorry loader on a daily working basis.

Course Aims:

This course is approved by NPORS and RTITB, and provides instruction in correct operation of lorry loaders (HIAB) for novice and experienced operators. Training is approximately 75% practical and 25% theory. Please note that this is a course we can only run at client's premises.

Course Objectives:

Upon completion of the course the learners will cover the following content: -

- Employer's and employee's legal responsibilities
- Hazards arising from the use of lorry loaders
- Pre-use inspection
- Construction, components and controls
- Stability factors
- Load indicators and safety devices
- Operational techniques
- Positioning of the load on the vehicle
- Keeping within safe working parameters

Certification:

Upon completion of the course the learners will be required to complete a short practical. On successful completion, Learners will receive an accredited certificate.

Learners must supply their own Personal Protective Equipment (PPE) for this course.
