

NRSWA (New Roads & Street Works Act) Unit 002 Signing, Lighting & Guarding (Operative)

Duration:

One day

Group Size:

Maximum 6 learners

Who Should Attend?

All operatives involved with the installation of signing, lighting and guarding.

Pre-requisites:

Have some experience of/knowledge of work site surveys & identifying hazards, to establish signing, lighting & guarding requirements. Installing temporary traffic management signals, including relevant signage, etc. Protecting pedestrians, vehicular site personnel (i.e. creating footways, traffic lanes and safety zones).

Course Aims:

Learners must demonstrate competency of installing / removing signing, lighting & guarding.

Certification:

On completion, all learners will be registered with the certifying body SQA who will issue a certificate to successful learners. Additionally, the successful learners will be registered with the SWQR (Street-Works Qualification Register) and will be issued with a registration card. Refresher training is required every 5 years to keep your card valid.
